Application

Operating conditions

gas flow

medium *
amount *
temperature *
pressure *
density *

inlet

°C

kg/m³

allowable pressure drop

liquid to be separated

medium
droplet size min. max. μm
density * kg/m³

characteristic of the liquid

water soluble rinsable with water tends to solid caking
sticky swells

Construction

material

→

special requirements?

Installation site

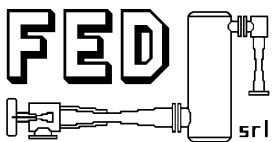

pipng apparatus chimney
indoors outdoors
in ex zone →

max. available space (l x w x h)

(add sketch, if nec.)

* mandatory field

By pushing **send** the questionnaire will send to company FED via e-mail.
You will receive an answer as soon as possible.
